

About

The Nashville Leadership Luncheon is one of the region's premier events on the subject of leadership. Each spring and fall, entrepreneurs and senior-level executives, from both for-profit and not for profit organizations, and all those interested in advancing their leadership skills, gather at Bridgestone Arena for a first-class experience.

The event features compelling keynote speakers, addressing specific aspects of leadership that they have mastered from their own journeys. Attendees have enjoyed hearing from Gary Bettman, Commissioner of the NHL, Jeremy Affeldt, former San Francisco Giants pitcher and three-time world series winner, and John Ingram, Chairman & CEO of Ingram Industries, just to name a few.

Attendees have the opportunity to hear about the challenging paths these leaders navigated, the mistakes made and course corrections that followed, as well as how they were able to influence their teams to achieve significant accomplishments. In addition to the keynote, guests will hear from the ALL Star Panelists, who focus on how to apply the leadership theme of the event.

Countless business relationships have been formed as a result of attending the event and the setting provides a terrific environment to grow and foster relationships. One of the most rewarding outcomes of the event, is learning of the business opportunities that were created from connections that were made by our guests.

Attendees can expect to experience a first-class environment with excellent food, warm southern hospitality, a unique setting and real leadership strategies and tools that they can put to work as soon as they leave their seat.

"For the last two years, I have attended the Leadership Luncheon hosted by Blain Wease. I wasn't sure what to expect year one, but I was truly touched and inspired by the speakers sharing their leadership wisdom and principles.

Year two was even more powerful since I knew what to expect and was prepared to write everything down. No matter where a leader is on their journey, to be surrounded by your peers, in an open forum, is like working out with a great coach. And if you're a leader that feels that you don't need a coach.... Let me remind you. Jack Nicklaus had one his entire career."

Scott Hamilton | Olympic Gold Medalist
